

# Alentus Is Setting the Standard in Internet Services

## Alentus Internet Services

Since 1997, Alentus Internet Services has been providing complete, professional, high-performance Internet Business Solutions to thousands of small to medium sized companies and customized services for larger organizations. With thousands of customers in more than 100 countries, Alentus hosts web sites, databases, web applications and manages Internet servers for a broad range of private and public organizations. We are recognized around the world as a top provider of ASP .NET and Windows web hosting services and our Company consistently wins awards that congratulate our efforts. Our success is a result of dedication to customer satisfaction, affordable prices, and a high level of technical support that is unmatched in the industry.

## A Trusted Business Partner

In today's competitive business climate, companies need to choose business partners they can trust, rely upon and work with. At Alentus, our goal is to build long-term partnerships and we work closely with each and every customer to ensure the success of their online business objectives. Our sales professionals are ready to assist you in choosing and configuring the right hardware and software and our technical support experts are always available to ensure your applications and servers operate at an optimum level of security, reliability and performance.

## People Support

While our business relies on technology, it is our focus on customer support and technical ability that really sets us apart. We have reached the status of **Microsoft Gold Certified Partner** by demonstrating increased levels of technical certification, deep real-world experience, and by providing completed customer reference projects that were independently verified by Microsoft. We have in-depth access to a variety of exclusive resources and early product information, including priority access to a support team of Microsoft certified systems engineers, non-disclosure evaluation of new products and technologies, as well as planning tools and events to keep us up to speed on the latest Internet technologies and future directions.

*"We have been using Alentus for 3 years now. What awesome service! These guys really know what they are doing. As a web development company we work with dozens of hosting companies. Nobody comes close to the service, support, and know how of Alentus. They have been extremely attentive to our needs and requests."*
