Google Search Servers

"Right out of the box,
without any tweaking at
all, the Google Search
Appliance was more
effective than the system
we'd been working on for
a year and a half."

Brad Hochhalter Knowledge Connection Kaiser Permanente

The Most Powerful Search Server Available

Now the same reliable results you expect from Google web search can be yours on your intranet, public website or dedicated document server with the Google search appliance from Alentus.

Quick and Easy Deployment

This hosted hardware and software solution is easy to use, simple to administer, and allows you to start delivering the power and productivity of Google search across your organization's documents and websites - quickly, easily and affordably. No costly hardware purchases are needed and Alentus is 100% responsible for managing the equipment, including full replacement coverage.

Perfect for Large Document Repositories

Combine a Google search appliance with a dedicated document server and give your organization the most powerful and easiest to manage document search solution available. This combination is the perfect document search system for law firms, medical offices, libraries, schools and other organizations with large document repositories and the need for an easy to administer, robust and powerful document search solution.

Contact our Sales Experts at 1.877.922.9903 to discuss a document management solution.
